Apex Group – London – AML Analyst, UK Financial Crime Compliance (JR-0024852)

Dear Hiring Team,

I am applying for the AML Analyst role in the UK Financial Crime Compliance team in London. Investor and client due diligence on fund and private equity structures, and explaining AML requirements to clients, is where my experience sits, across AML advisory, fund administration and governance roles in Luxembourg.

At Arendt Regulatory and Consulting I worked as a financial crime consultant on AML/KYC and CTF engagements, reviewing client files against CDD and enhanced due diligence requirements, identifying ultimate beneficial owners and assessing risk. At UBS Fund Administration Services, in transfer agency for private equity and real estate funds, I onboarded new investors, chased and checked KYC documentation, answered investor queries and worked with fund administration colleagues to clear outstanding items within deadlines. At AManco, a EUR 10 billion AIFM, and now at Triton Partners, I work daily with fund vehicles, limited partnerships, holding companies and SPVs across several jurisdictions, including their ownership charts, board records and RCS filings. I also designed and built an AI tool that automates governance document workflows, and I would welcome contributing to Apex's compliance tooling and process improvements. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
