Janus Henderson Investors – London – TA Operations Analyst (1422951900)

Dear Hiring Team,

I am applying for the TA Operations Analyst role in Transfer Agency Operations in London. Investor dealing, settlement, distributions and account maintenance are the core of my transfer agency experience at UBS Fund Administration Services in Luxembourg, and I would like to bring it to the oversight side, working with a third-party administrator such as SS&C.

At UBS I worked in transfer agency for private equity and real estate funds, processing subscriptions, capital calls, distributions and investor transfers, setting up more than 150 investor records during the Credit Suisse–UBS migration and validating more than 100 Partners' Capital Account statements against fund documents, all under four-eyes checks and tight deadlines. At Arendt Regulatory and Consulting I carried out AML/KYC reviews on investors, and at AManco, a EUR 10 billion AIFM, I produced quarterly reports for the Board. At Triton Partners I now handle governance and statutory records for a large portfolio of Luxembourg funds and SPVs, and I designed and built an AI tool, now used daily by the team, that compiles, converts and files governance documents in one run, the kind of digital process improvement your team is looking for. I know Luxembourg pooled vehicles well from this work and I am keen to deepen my knowledge of the FCA CASS 7 client money rules and UK and Irish fund ranges. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
