ABN AMRO Bank N.V. – London – Compliance Operations Associate

Dear Hiring Team,
I am applying for the Compliance Operations Associate role in ABN AMRO's London Compliance team. The role combines committee reporting, governance records and regulatory submissions, which is the work I do every day in governance and have done in financial crime compliance in Luxembourg.
At Triton Partners I now support the governance of a large portfolio of Luxembourg entities: I prepare board agendas and minutes, keep statutory records and action trackers up to date, and coordinate sign-offs across directors, auditors, law firms and banks to fixed deadlines, including more than 15 incorporations end to end. I also designed and built an AI tool, now used daily by the team, that compiles, converts and files governance documents in one run, and I would bring the same process-improvement mindset to Compliance MI, training tracking and regulatory correspondence. At Arendt Regulatory & Consulting I worked as a financial crime consultant on AML/KYC and CTF reviews for financial-sector clients, assessing procedures against regulatory requirements and documenting findings. At AManco, a EUR 10 billion AIFM, I prepared inputs for AIFMD Annex IV reporting to the CSSF and quarterly reports for the Board, and at UBS Fund Administration Services I handled investor onboarding and reconciliations. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT, and I am keen to deepen my knowledge of the PRA and FCA framework, including SMCR.
I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.
Yours sincerely,
Raman Yadav
