Utmost Luxembourg S.A. – Fund Accountant – CDD 12 months

Dear Utmost Recruitment Team,

I am applying for the Fund Accountant position (12-month CDD). Calculating and controlling the NAV of Utmost's internal collective funds, reconciling cash, securities and units, analysing variances and working with custodian banks is fund-level work I have prepared for through my experience in Luxembourg fund administration and at an AIFM.

At UBS Fund Administration Services I worked in private assets fund administration for private equity and real estate funds. I processed subscriptions, redemptions, capital calls and distributions, and validated more than 100 Partners' Capital Account statements against the fund documents, reconciling investor positions and cash movements before they were reported. At AManco, Arendt's AIFM, I monitored the assets and valuation reports of five funds and produced the quarterly portfolio and valuation reports for the Board, so I am used to reviewing NAV and valuation figures and explaining variances.

In my current role at Triton Investments Management SARL, a private equity firm, I work with the controlling and finance teams on a large portfolio of Luxembourg entities, including the sign-off of annual accounts, and I designed and built an AI automation tool that the whole team now uses daily. I am rigorous with controls and deadlines and work every day in Excel. At Arendt Regulatory & Consulting I also worked on AML/KYC, which helps on the regulatory side of fund administration.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology, and I am studying for CFA Level I. I am fluent in English. I live in Thionville, close to Findel, and am available immediately; as a non-EU national I would need Utmost's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
