**Utmost Luxembourg S.A. – KYC Officer – CDD 12 months**

Dear Utmost Recruitment Team,

I am applying for the KYC Officer position (12-month CDD). Clearing gaps after end-to-end client due diligence reviews, collecting up-to-date KYC documentation from partners and clients, updating client data and supporting the due diligence review of transactions is the AML/KYC work I have done in Luxembourg and want to keep building on.

At Arendt Regulatory & Consulting I worked as a Financial Crime Consultant in AML/CTF advisory. I performed AML/KYC checks and PEP screenings on more than 50 individual and institutional investors, escalated high-risk files for review and contributed to the design of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%. This gave me a working knowledge of Luxembourg AML/CTF requirements and of the documents needed for different client types and structures.

At UBS Fund Administration Services I worked in the transfer agent and investor services team for private equity and real estate funds. I set up more than 150 investor records and their static data in UBS's CRM during the Credit Suisse–UBS migration and handled investor queries on subscriptions, capital calls and distributions, so I understand how important accurate client data and a fast, professional response are. In my current role at Triton Investments Management SARL, a private equity firm, I keep governance files complete and audit-ready across a large portfolio of Luxembourg entities and built an AI automation tool that the whole team now uses daily.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology. I am fluent in English, with beginner French and German. I live in Thionville and am available immediately; as a non-EU national I would need Utmost's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
