Simpson Thacher & Bartlett LLP – London – AML Analyst

Dear Hiring Team,

I am applying for the AML Analyst role in the AML team in London. My AML experience began in the legal sector, at Arendt Regulatory and Consulting within the Arendt & Medernach law firm group in Luxembourg, and I have since worked on client due diligence and complex ownership structures across fund administration and governance roles.

At Arendt I worked as a financial crime consultant on AML/KYC and CTF engagements, reviewing client files against CDD and enhanced due diligence requirements, identifying beneficial owners and documenting risk assessments for review. At UBS Fund Administration Services, in transfer agency for private equity and real estate funds, I processed investor onboarding and KYC documentation to strict deadlines with four-eyes checks. At AManco, a EUR 10 billion AIFM, and now at Triton Partners, I work daily with the structures that drive due diligence in a firm like yours: fund vehicles, limited partnerships, holding companies and SPVs, including their incorporation, ownership charts, board records and RCS filings, and I keep the related registers and records up to date. I also designed and built an AI tool that automates governance document workflows, and I am comfortable with Excel and the wider Microsoft Office suite. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
