DWS (Luxembourg) – Senior Client Due Diligence Analyst – Transactional Due Diligence (KYC)

Dear DWS Recruitment Team,

I am applying for the Client Due Diligence Analyst – Transactional Due Diligence (KYC) position supporting DWS Alternative Asset Management in Luxembourg (R0446203). AML due diligence on real estate, infrastructure, private equity and private credit transactions brings together the two areas I know best: AML/KYC and alternative investment funds.

At Arendt Regulatory & Consulting I worked in AML/CTF advisory, performing AML/KYC checks and PEP screenings on more than 50 individual and institutional investors and escalating high-risk entities for review. I also contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%, so I have seen how KYC procedures and systems can be improved, not just applied. At UBS Fund Administration Services I worked on private equity and real estate funds, setting up more than 150 investor records in UBS's CRM during the Credit Suisse–UBS migration and validating investor documentation and capital activity against fund documents.

At AManco, Arendt's AIFM, I analysed more than 20 private equity, real estate, private debt and co-investment deals and presented them to the Investment Committee, which gave me a practical understanding of alternative investment structures, counterparties and transaction flows, the context for transactional due diligence. In my current internship at Triton Investments Management SARL, a private equity firm, I support governance across a large portfolio of Luxembourg entities and handled the incorporation of more than 15 entities with notaries, which involves collecting and checking ownership and corporate documentation. I also built an AI tool, now used daily by the whole team, that compiles, converts and files documents in one run, and I drove the team's adoption of Claude, Copilot and Glean while keeping outputs checked and compliant.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology, and I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM. I am familiar with the Luxembourg AML framework and CSSF requirements and keen to deepen my knowledge of AMLR and the German GwG. I am fluent in English, with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg, so no relocation is involved. As a non-EU national I would need DWS's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
