Fundcraft Management S.à r.l. – Corporate Governance Trainee

Dear Fundcraft Recruitment Team,

I am applying for the Corporate Governance Trainee position in Bertrange. Keeping corporate records complete, accurately named and easy to find is the core of good governance, and it is the part of governance work I have been improving in my current role.

At Triton Investments Management SARL, a private equity firm, I work on corporate governance for a large portfolio of Luxembourg entities. I prepare board minutes and coordinate their signature, handled the end-to-end incorporation of more than 15 Luxembourg entities with notaries and the finance teams, and manage the related RCS filings. I also designed and built an AI automation tool that compiles, converts and files governance documents in one run, following strict naming and filing conventions; the whole team now uses it daily. I would bring the same discipline to your archiving project, to scanning and naming incoming mail, and to uploading and tagging documents on your governance platform.

Before that I worked at UBS Fund Administration Services on investor records for private equity and real estate funds, where I set up more than 150 investor records during the Credit Suisse–UBS migration, and at AManco, Arendt's AIFM, and Arendt Regulatory & Consulting, where I handled board reporting and AML/KYC files. All of these roles depended on documents being complete and filed correctly.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology. I am fluent in English, with beginner French and German, and available immediately. I live in Thionville and already work in Luxembourg; as a non-EU national I would need to check with you the right contract and permit route for a traineeship.

I would be glad to discuss how I can help your team.

Yours sincerely,
Raman Yadav
