PANDOO Management S.A. – Valuation Analyst (F/M/D)

Dear PANDOO Recruitment Team,

I am applying for the Valuation Analyst position at PANDOO Management. Reviewing valuations and NAVs across real estate, private equity, venture capital and private debt for an independent AIFM is exactly the work I want to build my career on, and it is the work I did in the portfolio management and valuation team of a Luxembourg AIFM.

At AManco, Arendt's AIFM with about EUR 10 billion under management, I monitored the assets and valuation reports of five funds and produced the quarterly portfolio and valuation reports for the Board. I analysed more than 20 private equity, real estate, private debt and fund-of-funds/co-investment deals and presented investment memos to the Investment Committee, which gave me a practical understanding of how valuation models and external valuation reports are built and challenged. I also supported AIFMD Annex IV reporting with the risk team, using SQL and MS Access, so I know the regulatory reporting side of the role.

At UBS Fund Administration Services I worked for private equity and real estate funds and validated more than 100 Partners' Capital Account statements against the fund documents, checking capital calls, distributions and NAV movements prepared by the administrator. This is close to the review of third-party NAV calculations and the GAV/NAV figures you describe. In my current role at Triton Investments Management SARL, a private equity firm, I work on corporate governance for a large portfolio of Luxembourg entities, coordinate with notaries, auditors and the finance teams, and designed and built an AI automation tool that the whole team now uses daily. I am comfortable in Excel and with working autonomously on internal projects.

I have about two and a half years of experience across an AIFM, a fund administrator, a consultancy and a private equity firm. I hold a Master in Management (Grande École) from EDHEC Business School, with a focus on corporate finance and private equity, and a Bachelor of Technology from the Indian Institute of Technology, and I am studying for CFA Level I. I am fluent in English, with beginner French and German, and available immediately. I live in Thionville and already work in Luxembourg; as a non-EU national I would need PANDOO's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss how I can support your Conducting Officer of Valuation and Valuation Manager.

Yours sincerely,
Raman Yadav
