Deutsche Bank Luxembourg S.A. – Branch Operations Analyst (R0441404)

Dear Deutsche Bank Recruitment Team,

I am applying for the Branch Operations Analyst position in the Trade Settlement Confirmations Operations team in Luxembourg. The role combines transaction processing, reconciliations, controls and the use of AI tools to improve workflows, which is the kind of operational work I have done throughout my Luxembourg internships, and I would like to build my career in banking operations.

At UBS Fund Administration Services I worked in a back-office role for private equity and real estate funds. I set up more than 150 investor records during the Credit Suisse–UBS migration and validated more than 100 Partners' Capital Account statements against fund documents, which meant finding breaks, investigating them and following up until they were resolved before anything reached investors. At AManco, Arendt's AIFM, I supported AIFMD Annex IV regulatory reporting using MS Access and SQL, so I am used to accurate, complete and timely data under reporting deadlines.

In my current role at Triton Investments Management SARL, a private equity firm, I designed and built an AI automation tool that compiles, converts and files governance documents in one run; the whole team now uses it daily instead of doing the work by hand. Building it taught me to check AI output carefully and to keep the data it handles under control. I would like to apply the same approach to the controls, KPI and KRI reporting and recurring checks in your team. At Arendt Regulatory & Consulting I also performed AML checks on more than 50 investors and contributed to the implementation of an AML/CTF risk-assessment tool, so I understand how controls are designed and documented.

I have about two and a half years of experience across a private equity firm, a fund administrator, a consultancy and an AIFM. I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology. I am an advanced Excel and Word user, fluent in English, with beginner German and French, and available immediately on a full-time basis. I live in Thionville and already work in Luxembourg; as a non-EU national I would need the Bank's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
