Arendt Investor Services – Senior Officer – Risk & Control (JR000717)

Dear Arendt Recruitment Team,

I am applying for the Senior Officer – Risk & Control position at Arendt Investor Services. Supporting the risk and control framework of a CSSF-supervised PFS — risk assessments, the policies and procedures register, business continuity and ISO 22301 evidence, outsourcing risk, KPIs and dashboards for governance committees — is work I would be glad to do within the Arendt group, where I have already worked twice.

At Arendt Regulatory & Consulting I worked as a Financial Crime Consultant in AML/CTF advisory. I performed AML/KYC checks and PEP screenings on more than 50 investors and contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%. At AManco, Arendt's AIFM, I worked in Portfolio Management and Valuation, produced the quarterly portfolio and valuation reports for the Board and supported AIFMD Annex IV reporting with the risk team using SQL. Both roles taught me how risk frameworks are documented, evidenced and reported to management and supervisors.

At UBS Fund Administration Services I validated more than 100 Partners' Capital Account statements against the fund documents and set up investor static data during the Credit Suisse–UBS migration, which is control work where accuracy and audit trail matter. In my current role at Triton Investments Management SARL, a private equity firm, I coordinate governance and board sign-offs across a large portfolio of Luxembourg entities, and I designed and built an AI automation tool that compiles, converts and files governance documents in one run; the whole team now uses it daily. I enjoy building dashboards, tracking remediation actions and making controls easier to evidence.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology, which gives me a good basis for the ICT risk side of the role. I am fluent in English, with beginner French and German. I live in Thionville and already work in Luxembourg; as a non-EU national I would need Arendt's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
