GLAS – London – Client Services Associate, EMEA Loan Agency

Dear Hiring Team,
I am applying for the Client Services Associate role in GLAS's EMEA Client Services team. Processing cash events to tight deadlines, checking them against the documentation and being the operational contact for counterparties is the work I have done in fund administration, and loan agency is where I would like to apply it.
At UBS Fund Administration Services I worked in transfer agency for private equity and real estate funds: I processed capital calls, distributions and transfers, checked transfer requests against fund documentation, reconciled investor cash and positions, carried out KYC checks on investors and answered their queries, and validated more than 100 Partners' Capital Account statements to fixed deadlines. At Arendt Regulatory & Consulting I worked on AML/KYC and CTF reviews for financial-sector clients, and at AManco, a EUR 10 billion AIFM, I monitored private debt and other alternative portfolios and prepared reporting for the Board. At Triton Partners I now coordinate sign-offs across directors, banks, auditors and law firms for a large portfolio of Luxembourg holding entities, including bank account openings and more than 15 incorporations end to end, and I designed and built an AI tool, now used daily by the team, that compiles, converts and files governance documents in one run. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT, and I am keen to learn Solvas and the full loan lifecycle.
I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.
Yours sincerely,
Raman Yadav
