EY Luxembourg – Assistant Valuation – Real Estate (Valuation in Assurance, FAAS)

Dear EY Recruitment Team,

I am applying for the Assistant Valuation – Real Estate position in your Valuation in Assurance team. The role brings together the two halves of my background: a Bachelor of Technology in Construction Management and Structural Engineering from the Indian Institute of Technology, and a Master in Management from EDHEC Business School with a focus on corporate finance and private equity. Assessing whether real estate valuations and financial models hold up is exactly where I want to apply both.

At AManco, Arendt's AIFM, I worked in the Portfolio Management and Valuation team on private equity, real estate and fund-of-funds strategies. I monitored assets and analysed valuation reports for five funds, produced quarterly portfolio and valuation reports for the Board, and analysed more than 20 private equity, real estate, private debt and co-investment deals for the Investment Committee. Reviewing external valuations there taught me to question assumptions, check consistency with fund documents and explain my conclusions clearly. At UBS Fund Administration Services I processed investor activity for private equity and real estate funds and validated more than 100 Partners' Capital Account statements, which gave me precision with fund-level data.

My EDHEC studies gave me a solid grounding in DCF, income capitalisation and market approaches, and my engineering degree gave me a practical understanding of how residential and commercial buildings are designed, built and costed, which is useful for residual and development valuations. I am studying for CFA Level I and I am keen to deepen my knowledge of the RICS Red Book, IVS and IFRS 13. In my current internship at Triton Investments Management SARL, a private equity firm, I support board governance across a large portfolio of Luxembourg entities and built an AI tool, now used daily by the whole team, that compiles, converts and files documents in one run.

I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM. I am comfortable with Excel, Word and PowerPoint, and I am fluent in English with beginner French and German. I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg, so no relocation is involved. As a non-EU national I would need EY's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
