Arrow Global Group – London – KYC Associate, Group Compliance (Governance & Risk)

Dear Hiring Team,

I am applying for the KYC Associate role in the Group Compliance team in London. Due diligence on investors and counterparties in private fund and alternative investment structures, and the UBO analysis behind it, is where my experience sits, across AML advisory, fund administration and an AIFM in Luxembourg.

At Arendt Regulatory and Consulting I worked as a financial crime consultant on AML/KYC and CTF engagements, reviewing client files against CDD and enhanced due diligence requirements, performing AML/KYC checks and PEP screenings on more than 50 investors, identifying ultimate beneficial owners and documenting risk assessments. At UBS Fund Administration Services, in transfer agency for private equity and real estate funds, I onboarded investors, checked KYC documentation and set up more than 150 investor records during the Credit Suisse–UBS migration under four-eyes checks. At AManco, a EUR 10 billion AIFM, I produced quarterly reports for the Board, and at Triton Partners I now work daily with complex ownership structures, from fund vehicles and limited partnerships to holding companies and SPVs, including their ownership charts, board records and RCS filings. I also designed and built an AI tool, now used daily by the team, that automates governance document workflows, and I would welcome applying the same approach to KYC processes and controls. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
