Alter Domus – AIFM Operations and Oversight Officer

Dear Hiring Team,

I am applying for the AIFM Operations and Oversight Officer role in your Management Company team. My closest match is six months at AManco SA, Arendt's AIFM (AUM EUR 10 billion), where I monitored assets and analysed valuation reports for five funds, produced quarterly portfolio and valuation reports for the Board, and supported both AIFMD Annex IV reporting (MS Access, SQL) and relationships with eight institutional clients.

The posting stresses smooth fund operations and tight deadlines. At UBS Fund Administration I processed subscriptions, redemptions, capital calls and distributions for PE and real estate funds, prepared and validated 100+ PCAP statements and capital activity notices against fund offering documents, delivered on time, and set up 150+ investor records in UBS's CRM during the Credit Suisse–UBS migration. That is the administrator's side of the delegated functions you oversee.

The role also lists DocuSign. At Triton I coordinate post-board DocuSign sign-off of annual accounts across a large portfolio of Luxembourg entities, and I built an AI tool the whole team uses daily to compile, convert and file governance documents. French is listed as an advantage; mine is at beginner level and I am keen to build it.

Alter Domus serves 90% of the top 30 asset managers in private markets, the segment where all my fund experience sits. I would be glad to discuss the role with you.

Kind regards,
Raman Yadav
