Alter Domus – Depositary Officer

Dear Hiring Team,

I am applying for the Depositary Officer role, and my strongest match is the cash-flow processing and document checking behind depositary cash monitoring and oversight. At UBS Fund Administration Services, I processed subscriptions, redemptions, capital calls and distributions for private equity and real estate funds, and validated more than 100 Partners' Capital Account statements and capital activity notices against fund offering documents.

Your posting also stresses third-party due diligence and client contact with asset managers, administrators and auditors. At Arendt Regulatory & Consulting, I ran PEP screenings and AML checks on more than 50 investors, escalated high-risk entities and helped design SARA, an AML/CTF risk-assessment tool that cut review time by 40%. At AManco, Arendt's AIFM, I supported eight institutional client relationships and AIFMD Annex IV reporting. At Triton, I now coordinate post-board sign-off of annual accounts across a large portfolio of Luxembourg entities, and I built an AI tool the team uses daily to compile and file governance documents.

Alter Domus specialises in alternative assets, and a depositary role on private equity and real estate AIFs fits the private equity focus of my EDHEC Master in Management and my fund experience across both asset classes. I work fluently in English, am building my French and German, and bring advanced MS Office and proficient SQL skills.

I would welcome the chance to discuss how I can support your depositary team.

Kind regards,
Raman Yadav
