Arendt Investor Services – Corporate Assistant

Dear Hiring Team,

I am applying for the Corporate Assistant role at Arendt Investor Services (AIS). Since January 2026, as a Corporate Governance & AI Automation intern at Triton Investments Management, I have drafted board minutes and coordinated the post-board DocuSign sign-off of annual accounts across a large portfolio of Luxembourg entities: the signature and board-support work at the core of this role.

Your posting also mentions compiling board packs, KYC/AML documentation and process improvements. At Triton I designed and built an AI tool that compiles, converts and files governance documents in one run; the whole team now uses it daily in place of manual formatting and filing. At Arendt Regulatory & Consulting I performed PEP screenings and AML checks on 50+ individual and institutional investors and contributed to designing and implementing SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%. At UBS Fund Administration I set up 150+ investor records during the Credit Suisse–UBS migration and validated 100+ Partners' Capital Account statements against fund offering documents.

My 12-month rotation across Arendt Regulatory & Consulting and AManco means I would join AIS already familiar with the Arendt Group. I hold a Master in Management from EDHEC Business School, work in fluent English and have beginner French and German that I am keen to build. I would welcome the chance to discuss how I can support your Corporate Secretariat.

Kind regards,
Raman Yadav
