Arendt Investor Services – Junior Officer - Governance Services

Dear Hiring Team,

I am applying for the Junior Officer – Governance Services role at Arendt Investor Services (AIS). Since January 2026, as a Corporate Governance & AI Automation intern at Triton Investments Management, I have drafted board minutes and coordinated the post-board DocuSign sign-off of annual accounts across a large portfolio of Luxembourg entities.

Beyond board meetings and follow-up, the role calls for maintaining corporate files and reviewing fund documentation. At Triton I built an AI tool that compiles, converts and files governance documents in one run, now used daily by the whole team, plus a central investor tracker reporting ownership changes by entity. During nine months at UBS Fund Administration Services, I prepared and validated 100+ PCAP statements and capital activity notices against fund offering documents, delivered on time.

I also know the Arendt Group first-hand. Over a 12-month rotation, I produced quarterly portfolio and valuation reports for the Board at AManco and performed PEP screenings and AML checks on 50+ investors at Arendt Regulatory & Consulting. AIS brings governance, fund administration, AML and AIFM services together, and I would like to build my Luxembourg fund-industry experience within that model.

With an EDHEC Master in Management focused on financial services, I am keen to develop direct experience liaising with the CSSF, notaries, lawyers and banks, and would welcome the chance to discuss how I can support your client portfolio.

Kind regards,
Raman Yadav
