Ascender Fund Partners Luxembourg S.A. – Associate – Risk Management Officer

Dear Ascender Fund Partners Recruitment Team,

I am applying for the Associate – Risk Management Officer position in your Risk Management team. Independent monitoring of private equity, private debt and real estate funds within an AIFM is where I want to build my career, and my Luxembourg experience has been with exactly these asset classes, on the AIFM side, the fund administration side and the private equity side.

At AManco, Arendt's AIFM, I worked in Portfolio Management and Valuation across private equity, real estate and fund-of-funds strategies. I supported deal analysis and investment memos, monitored assets and prepared portfolio reports, and contributed to AIFMD Annex IV regulatory reporting for eight institutional clients. That work showed me how the risk function sits independently next to portfolio management and valuation, and how KRIs, limits and breaches are reported to governance bodies.

At UBS Fund Administration Services I processed capital calls and distributions for private equity and real estate funds and validated more than 100 Partners' Capital Account statements against fund documents, which trained my attention to detail on investment data. At Arendt Regulatory & Consulting I performed AML/KYC checks and PEP screenings on more than 50 investors and contributed to SARA, an AML/CTF risk-assessment tool. In my current internship at Triton Investments Management SARL, a private equity firm, I draft board minutes and coordinate the post-board sign-off of annual accounts across a large portfolio of Luxembourg entities. With my engineering background I built an AI tool, now used daily by the whole team, that compiles, converts and files governance documents in one run. I would bring the same approach to automating risk monitoring and data quality.

I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM. I hold a Master in Management (Grande École) from EDHEC Business School, graduated in November 2025, and a Bachelor of Technology from the Indian Institute of Technology. I am fluent in English with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation or visa from abroad is involved. As a non-EU national I would need Ascender's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
