Subject: Application for the Risk Monitoring Officer position

Dear Hiring Team,

I am pleased to apply for the Risk Monitoring Officer position at BTG Pactual Europe in Luxembourg. Monitoring risk across client portfolios, setting pre- and post-trade rules and making sure every operation stays within the bank's risk appetite is exactly the kind of control work I want to build my career in.

Over the past 2.5 years I have gained internship experience across the Luxembourg financial sector. At AManco, an AIFM with around EUR 10 billion under management, I worked in Portfolio Management and Valuation alongside the risk team: I analysed more than 20 investment recommendations across private equity, real estate and private debt, monitored the assets and valuation reports of five funds and supported AIFMD Annex IV regulatory reporting using MS Access and SQL. At Arendt, I performed AML/KYC and PEP checks on more than 50 investors and contributed to SARA, an AML/CTF risk-assessment tool that cut review time by 40%. At UBS Fund Administration Services I processed investor activity for private-equity and real-estate funds and validated more than 100 capital account statements, which taught me precision under deadlines.

I hold a Master in Management from EDHEC Business School (graduated November 2025), with a focus on financial services and corporate finance, and an engineering degree from IIT; I am currently studying for the CFA. I am comfortable with data, Excel and SQL, and I enjoy building controls and tools that make monitoring faster and more reliable. I would bring this analytical rigour, together with my knowledge of the Luxembourg regulatory environment, to your risk team.

I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation is involved. As a non-EU national, I would need BTG Pactual's support for a Luxembourg work authorisation as a cross-border worker. I am available immediately.

I would be glad to discuss how I can contribute to your team. Thank you very much for your time and consideration.

Kind regards,

Raman Yadav
