DWS Investment S.A., Luxembourg – Market and Liquidity Risk Analyst

Dear DWS Recruitment Team,

I am applying for the Market and Liquidity Risk Analyst position in the Investment Risk Framework team in Luxembourg. Independent risk oversight of investment funds, combined with building tools that automate monitoring and reporting, is the mix of finance and engineering I want my career to be built on, and the role's emphasis on applying AI responsibly to improve processes matches what I have been doing in my current work.

At AManco, Arendt's AIFM, I worked in Portfolio Management and Valuation across private equity, real estate and fund-of-funds strategies. I supported deal analysis and investment memos, monitored assets and prepared portfolio reports, and contributed to AIFMD Annex IV regulatory reporting for eight institutional clients. This gave me a practical view of how a management company's risk, portfolio management and valuation functions work together under the regulatory framework for investment funds. At UBS Fund Administration Services I processed capital calls and distributions for private equity and real estate funds and validated more than 100 Partners' Capital Account statements against fund documents, which built my discipline with financial data.

I hold a Bachelor of Technology from the Indian Institute of Technology, which gave me a solid quantitative foundation, and a Master in Management (Grande École) from EDHEC Business School, graduated in November 2025. In my current internship at Triton Investments Management SARL, a private equity firm, I built an AI tool, now used daily by the whole team, that compiles, converts and files governance documents in one run, and I supported the team's adoption of Claude, Copilot and Glean. I apply critical judgement to AI outputs and check them against source documents before anything is relied on. At Arendt Regulatory & Consulting I also contributed to SARA, an AML/CTF risk-assessment tool, which reduced review time by 40%.

I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM. I communicate clearly in writing and in discussion, and I enjoy working with colleagues across locations. I am fluent in English with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation or visa from abroad is involved. As a non-EU national I would need DWS's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
