EY Luxembourg – Assistant Valuation - Private Equity/Private Debt

Dear Hiring Team,

I am applying for the Assistant Valuation - Private Equity/Private Debt role in EY's FAAS Valuation practice. My most relevant experience is at AManco, Arendt's AIFM with EUR 10 billion under management, where I monitored assets and analysed valuation reports for five funds and produced quarterly portfolio and valuation reports for the Board.

That work covered several of the asset classes your pricing team values. I evaluated more than 20 investment recommendations across private equity, real estate, private debt and co-investments and presented my findings to the Investment Committee. At UBS Fund Administration I prepared and validated over 100 Partners' Capital Account (PCAP) statements and capital activity notices against fund offering documents, a discipline of checking figures against source documents that I would bring to valuation review. I also supported AIFMD Annex IV reporting using MS Access and SQL, data skills I would apply to helping auditors meet regulatory requirements.

My EDHEC Master in Management, taught in English, focused on Advanced Corporate Finance and Private Equity & Venture Capital, and I have completed Bloomberg Market Concepts. EY's practice appeals to me because it applies valuation directly within assurance engagements, across assets from private debt to complex derivatives. My French and German are at beginner level, and I am keen to build both.

I would welcome the chance to discuss how my fund valuation reporting experience could support your engagements.

Kind regards,
Raman Yadav
