HedgeServ – Investor Services Administrator

Dear Hiring Team,

I am applying for the Investor Services Administrator role at HedgeServ. During a nine-month internship in the Transfer Agent/Investor Services team at UBS Fund Administration Services in Kirchberg, I processed subscriptions, redemptions, capital calls and distributions for private equity and real estate funds, work central to this role.

The role also involves investor statements and AML/KYC documentation. At UBS I set up more than 150 investor records in its CRM during the Credit Suisse–UBS migration, and prepared and validated over 100 Partners' Capital Account statements and capital activity notices against fund offering documents, all delivered on time. At Arendt Regulatory & Consulting I performed PEP screenings and AML checks on more than 50 individual and institutional investors, escalating high-risk entities for review.

Your posting stresses regular client reporting and attention to detail. At Triton Investments Management I built a central investor tracker, refreshed daily from the internal deal database, that reports investor and ownership changes by entity. I hold a Master in Management from EDHEC Business School, am fluent in English and use MS Office (Excel, Word, Outlook) at an advanced level.

HedgeServ's customised fund administration across UCITS, SIFs, UCIs and RAIFs would let me broaden my experience beyond private-asset funds within your Kirchberg team. I have beginner French and German and am keen to build both. I would welcome the chance to discuss the role.

Kind regards,
Raman Yadav
