KPMG Luxembourg S.A. – Junior Business Analyst – Management Consulting (Tech & Consulting Recruitment Day, 11 November 2026)

Dear KPMG Luxembourg Recruitment Team,

I am applying for a junior permanent position as Business Analyst in your Management Consulting team through the Tech & Consulting Recruitment Day on 11 November 2026. Helping banks and asset managers redesign their operating models and processes, with data, automation and AI at the centre, is exactly where my engineering background and my Luxembourg fund industry experience come together.

In my current internship at Triton Investments Management SARL, a private equity firm, I analysed how the governance team prepared, converted and filed documents across a large portfolio of Luxembourg entities, and built an AI tool that now does this in one run and is used daily by the whole team. I also drove the team's adoption of Claude, Copilot and Glean, and I handled the incorporation of more than 15 Luxembourg entities, coordinating notaries, the controlling and finance teams and RCS filings. This taught me to understand a process end to end, find where the manual effort sits and deliver a practical solution that people actually adopt.

My earlier internships gave me a close view of the client side of consulting projects. At UBS Fund Administration Services I worked in private assets investor services during the Credit Suisse and UBS migration, setting up more than 150 investor records in the CRM and processing capital activity for private equity and real estate funds. At AManco, Arendt's AIFM, I analysed more than 20 deals, presented investment memos to the Investment Committee and supported AIFMD Annex IV reporting with SQL and MS Access. At Arendt Regulatory & Consulting I performed AML/KYC reviews for more than 50 investors and contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%.

I hold a Master in Management (Grande École) from EDHEC Business School, graduated in November 2025, and a Bachelor of Technology from the Indian Institute of Technology. I am fluent in English with beginner French and German, and I can start whenever suits the team, including in January 2027. I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation or visa from abroad is involved. As a non-EU national I would need KPMG's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to take part in the Recruitment Day.

Yours sincerely,
Raman Yadav
