Langham Hall – Analyst / Associate - AML/CTF

Dear Hiring Team,

I am applying for the Analyst / Associate - AML/CTF role in Langham Hall's Luxembourg AIFM team. As a Financial Crime Consultant intern at Arendt Regulatory & Consulting, I performed PEP screenings and AML checks on more than 50 individual and institutional investors, including a one-month secondment at a client site, and escalated high-risk entities for review. I also contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%.

That work maps closely to the first-level screening and risk rating at the core of your role. At UBS Fund Administration Services, I set up more than 150 investor records in the CRM during the Credit Suisse–UBS migration and processed subscriptions, redemptions, capital calls and distributions for private equity and real estate funds, so I understand the flows transaction monitoring must cover. At Triton, I built an AI tool that compiles, converts and files governance documents, now used daily by the whole team, which speaks to the interest in IT your posting values.

Langham Hall works across real estate, private equity, infrastructure and private debt, the asset classes I worked with at AManco, Arendt's AIFM, and at UBS. I want to build on my Luxembourg AML/CTF experience and extend it to CPF, and I would welcome the chance to discuss how I can support your team.

Kind regards,
Raman Yadav
