Palana – AML/CTF & Regulatory Compliance Analyst

Dear Hiring Team,

I am applying for the AML/CTF & Regulatory Compliance Analyst role at Palana. As a Financial Crime Consultant intern at Arendt Regulatory & Consulting, I performed PEP screenings and AML checks on more than 50 individual and institutional investors, including during a one-month client secondment, escalating high-risk entities for review.

My Arendt work also maps onto the role's risk-based approach design: I contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%. For the report drafting the role involves, I produced quarterly portfolio and valuation reports for the Board at AManco, Arendt's AIFM, and supported AIFMD Annex IV reporting using MS Access and SQL. At UBS Fund Administration, I prepared and validated over 100 Partners' Capital Account statements and capital activity notices against fund offering documents, giving me practical knowledge of the investment fund sector Palana serves.

Palana's combination of advisory, managed services and technology fits the way I work: at Triton Investments Management, I designed and built an AI tool that compiles, converts and files governance documents in one run, now used daily by the whole team.

I hold a Master in Management from EDHEC Business School and work fluently in English. I am keen to deepen my knowledge of CSSF, FATF and AMLD requirements and to build my French and German. I would welcome the chance to discuss the role.

Kind regards,
Raman Yadav
