TMF Group – Junior Depositary Services Officer

Dear Hiring Team,

I am applying for the Junior Depositary Services Officer role at TMF Group. Your duty of reviewing fund transactions against documentation matches my nine months at UBS Fund Administration Services, where I processed subscriptions, redemptions, capital calls and distributions for private equity and real estate funds, and validated 100+ Partners' Capital Account statements and capital activity notices against fund offering documents.

My Arendt rotation covered further parts of the role. At Arendt Regulatory & Consulting, I performed PEP screenings and AML checks on 50+ individual and institutional investors and escalated high-risk entities for review, relevant to your AML/KYC reviews. At AManco, Arendt's AIFM, I monitored assets and analysed valuation reports for five funds, produced quarterly portfolio and valuation reports for the Board and supported AIFMD Annex IV reporting. I have therefore worked inside both an AIFM and a fund administrator, counterparties this role liaises with.

In my current internship at Triton Investments Management, I built an investor tracker that reports investor and ownership changes by entity, relevant to maintaining legal ownership records.

TMF Group's reach across 87 jurisdictions and its commitment to knowledge sharing appeal to me, as I want to build depositary expertise in an international team. My EDHEC Master in Management, focused on financial services and private equity, gives me the finance grounding the role calls for.

I would welcome the chance to discuss the role.

Kind regards,
Raman Yadav
