The Carlyle Group – Junior AML/KYC Specialist

Dear Hiring Team,

I am applying for the Junior AML/KYC Specialist role at The Carlyle Group in Luxembourg. At Arendt Regulatory & Consulting I performed PEP screenings and AML checks on more than 50 individual and institutional investors, including a one-month client secondment, and escalated high-risk entities for review. Screening and escalation sit at the core of this role.

The position also covers risk assessments and record-keeping. At Arendt I contributed to the design and implementation of SARA, the firm's AML/CTF risk-assessment tool, which cut review time by 40%. At UBS Fund Administration I set up more than 150 investor records in the CRM during the Credit Suisse–UBS migration and processed subscriptions, redemptions and capital calls for private equity and real estate funds. At Triton Investments Management I draft board minutes, coordinate DocuSign sign-off of annual accounts across Luxembourg entities, and built a tool that compiles and files governance documents in one run. That work matches the corporate secretarial side of the job.

What draws me is the broad exposure to Carlyle's Luxembourg investment platform. At AManco, Arendt's AIFM, I evaluated more than 20 investment recommendations across private equity, real estate and private debt, and my EDHEC Master in Management focused on financial services and private equity. I am also keen to build my French on the job.

I would welcome the chance to discuss how I could support your KYC team.

Kind regards,
Raman Yadav
