Waystone – Junior Associate - Regulatory Reporting

Dear Hiring Team,

I am applying for the Junior Associate – Regulatory Reporting role at Waystone. My closest regulatory reporting experience is from AManco, Arendt's AIFM, where I supported AIFMD Annex IV reporting using MS Access and SQL and produced quarterly portfolio and valuation reports for the Board.

Coordinating KIIDs, KIDs and EPTs depends on accurate documents delivered on schedule. At UBS Fund Administration Services, I prepared and validated over 100 PCAP statements and capital activity notices against fund offering documents, delivered on time. During the Credit Suisse–UBS migration, I set up 150+ investor records, experience I would bring to further migrations into the Regulatory Reporting COE.

I enjoy improving procedures. At Triton Investments Management, I built an AI tool that compiles, converts and files governance documents, now used daily by the whole team instead of manual formatting and filing. I also built a daily-refreshed investor tracker showing ownership changes by entity. At Arendt Regulatory & Consulting, I contributed to the design of SARA, an AML/CTF risk-assessment tool that cut review time by 40%.

My Luxembourg internships have covered the governance, administration, risk and compliance areas that Waystone serves. I hold a Master in Management from EDHEC and a B.Tech with mathematics from IIT Palakkad, and bring advanced MS Office (including Excel) and proficient SQL. I am keen to deepen my PRIIPs knowledge and learn VBA. I would welcome a conversation.

Kind regards,
Raman Yadav
