eBay – EDD Analyst

Dear Hiring Team,

I am applying for the EDD Analyst role at eBay in Luxembourg. As a Financial Crime Consultant intern at Arendt Regulatory & Consulting, I performed PEP screenings and AML checks on more than 50 individual and institutional investors and escalated high-risk entities for review, including during a one-month client secondment. That is the groundwork for reviewing higher-risk customers, PEPs included, for eBay S.à r.l. and eCUK.

Improving processes while meeting deadlines is equally familiar. At Arendt I contributed to the design and implementation of SARA, the firm's AML/CTF risk-assessment tool, cutting review time by 40%. At UBS Fund Administration I set up 150+ investor records during the Credit Suisse–UBS migration and validated 100+ capital account statements against fund offering documents, all delivered on time.

Helping coordinate the monthly EDD Committee and supporting AML policy reviews draws on my current internship at Triton, where I draft board minutes and coordinate post-board sign-off across a large portfolio of Luxembourg entities. I also built an AI tool the team uses daily to compile and file governance documents. At AManco I presented findings to the Investment Committee.

A marketplace serving millions of buyers and sellers in more than 190 markets needs due diligence that is rigorous and fast, and that is the work I want to do at eBay. I would welcome the chance to discuss how I can support the EU EDD team.

Kind regards,
Raman Yadav
