Finalyse Luxembourg – Recruitment
Luxembourg

Thionville, 25 October 2026

Subject: Application for Valuation Analyst

Dear Hiring Team,

I am applying for the Valuation Analyst position at Finalyse in Luxembourg. Valuing private equity and private debt, choosing the right approach for each asset and explaining it clearly to the client is the part of fund work I enjoy most, and I would like to make it my specialisation within an independent valuation team such as yours.

At AManco, Arendt's AIFM with EUR 10 billion under management, I analysed more than 20 private equity, real estate, private debt and fund-of-funds/co-investment deals, drafted investment memos and presented them to the Investment Committee. I monitored assets and reviewed the valuation reports of five funds, produced the quarterly portfolio and valuation reports for the Board, and supported AIFMD Annex IV reporting with the risk team using MS Access and SQL. This gave me practical exposure to how private asset valuations are built, challenged and documented.

At UBS Fund Administration Services I validated more than 100 partners' capital account statements against fund documents for PE and RE funds, which taught me rigour and how valuations feed into investor reporting. In my current internship at Triton I built an automation tool that compiles, converts and files governance documents in one run and is used daily by the whole team. I enjoy turning manual processes into reliable tools, and I would bring the same mindset to your valuation and financial engineering projects. Altogether I have around 2.5 years of experience in the Luxembourg fund industry.

I hold a Master in Management (Grande École) from EDHEC Business School (graduated November 2025), with a focus on advanced corporate finance and private equity, and a Bachelor of Technology from the Indian Institute of Technology, which gave me a solid quantitative base. I work at an advanced level in Excel and SQL, I am studying for CFA Level I, and I am keen to deepen my Python modelling skills on the job.

I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation is involved. As a non-EU national I would need Finalyse's support for a Luxembourg work authorisation as a cross-border worker. I am available immediately.

I would be glad to discuss my application. Thank you very much for your time and consideration.

Kind regards,

Raman Yadav
