Utmost Luxembourg S.A. – Performance Measurement Officer

Dear Utmost Talent Acquisition Team,

I am applying for the Performance Measurement Officer position in Findel. Reviewing fund performance against benchmarks, supporting investment manager due diligence and producing regular reports for partners is close to the investment oversight work I did during my internships in Luxembourg, and I would like to build on it in your team.

At AManco, Arendt's AIFM with EUR 10 billion under management, I monitored assets and analysed valuation reports for five funds, producing quarterly portfolio and valuation reports for the Board. I evaluated more than 20 investment recommendations across private equity, real estate, private debt and co-investments for the Investment Committee and supported AIFMD Annex IV regulatory reporting with MS Access and SQL. That work taught me to read investment data against a fund's stated objective and strategy, and to explain what I found clearly.

At UBS Fund Administration Services I prepared and validated more than 100 Partners' Capital Account statements and capital activity notices against fund offering documents for private equity and real estate funds. At Arendt Regulatory & Consulting I performed AML/KYC checks and PEP screenings on more than 50 investors, which is useful background for due diligence questionnaires. In my current internship at Triton Investments Management SARL I coordinate the post-board sign-off of annual accounts across a large portfolio of Luxembourg entities and built an AI tool, now used daily by the whole team, that compiles, converts and files governance documents in one run. I would bring the same interest in automation to your monthly and quarterly reporting.

I hold a Master in Management (Grande École) from EDHEC Business School, graduated in November 2025, with a focus on financial services and Advanced Corporate Finance, and a Bachelor of Technology from the Indian Institute of Technology. I work at an advanced level in MS Office and I am proficient in SQL. I am fluent in English with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation or visa from abroad is involved. As a non-EU national I would need Utmost's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
