Bank of America – Bromley (London) – AML Onboarding Analyst, Global AML Onboarding (Job ID 26038977)

Dear Hiring Team,

I am applying for the AML Onboarding Analyst role in the Global AML Onboarding team in Bromley. Client due diligence on complex structures such as funds, partnerships and SPVs is where my experience sits, across AML advisory, fund administration and governance work in Luxembourg.

At Arendt Regulatory and Consulting I worked as a financial crime consultant on AML/KYC and CTF engagements for financial institutions, reviewing client files against CDD and enhanced due diligence requirements, identifying ultimate beneficial owners and assessing risk. At UBS Fund Administration Services, in transfer agency for private equity and real estate funds, I onboarded investors, checked KYC documentation and worked to strict processing deadlines and quality checks. At AManco, a EUR 10 billion AIFM, and now at Triton Partners, I work daily with the structures your team reviews: fund vehicles, limited partnerships, holding companies and SPVs, including their incorporation, ownership charts, board records and RCS filings. I also designed and built an AI tool that automates governance document workflows, and I bring the same control-focused, process-improvement mindset to KYC operations. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
