Man Group – London – Analyst, Fund Regulatory Reporting

Dear Hiring Team,

I am applying for the Analyst role in the Fund Regulatory Reporting team in London. AIFMD reporting is the part of fund operations I have worked on most directly, at an AIFM, a fund administrator and a private equity firm in Luxembourg, and I would like to build on it in a dedicated regulatory reporting team.

At AManco, a EUR 10 billion AIFM, I prepared and checked inputs for AIFMD Annex IV reporting to the CSSF, gathering leverage, exposure, liquidity and valuation data from portfolio managers, administrators and risk, and reconciling it before sign-off. I also monitored private equity, real estate, private debt and fund-of-funds portfolios and produced quarterly reports for the Board. At UBS Fund Administration Services I worked in transfer agency for private equity and real estate funds, reconciling investor positions and validating more than 100 Partners' Capital Account statements against fund documents to fixed deadlines. At Arendt Regulatory & Consulting I worked on AML/KYC and CTF reviews for financial-sector clients. At Triton Partners I now coordinate board sign-offs across directors, auditors, law firms and banks for a large portfolio of Luxembourg entities, and I designed and built an AI tool, now used daily by the team, that compiles, converts and files governance documents in one run. I would bring the same data-handling and automation mindset to Annex IV, Form PF and CPO-PQR filings. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
