Maples Fiduciary Services (Luxembourg) S.A. – Maples Group – Compliance Officer / Luxembourg Compliance Team

Dear Maples Group Recruitment Team,

I am writing about the Regulatory Compliance and Outsourcing Officer opening in your Luxembourg compliance team. I am aware that this new role is designed for an experienced Key Person, and I do not yet have that seniority. I am applying because I would very much like to join the team that is being built around it, and I would be grateful to be considered for any junior or analyst position supporting the Compliance Officer, now or as the team grows.

The work described is close to what I have done in Luxembourg. At Arendt Regulatory & Consulting I worked as a financial crime consultant in AML/CTF advisory, performing PEP screenings and AML checks on more than 50 individual and institutional investors, escalating high-risk cases, and contributing to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%. At AManco, Arendt's AIFM, I supported AIFMD Annex IV regulatory reporting to the CSSF and coordinated with service providers for eight institutional clients, and at UBS Fund Administration Services I worked in transfer agency for private equity and real estate funds, validating investor records and capital activity against fund documents.

In my current role at Triton Investments Management SARL, a private equity firm, I work on corporate governance for a large portfolio of Luxembourg entities. I draft board minutes, coordinate the sign-off of annual accounts, handled the incorporation of more than 15 Luxembourg entities with notaries and the finance teams, and managed the related RCS filings. That is the board-facing, deadline-driven side of compliance: keeping registers and approvals in order and making sure decisions are documented and followed through. I also built an AI tool, now used daily by the whole team, that compiles, converts and files governance documents in one run, which I think could support monitoring, testing and register maintenance in a compliance programme.

I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM. I hold a Master in Management (Grande École) from EDHEC Business School, graduated in November 2025, and a Bachelor of Technology from the Indian Institute of Technology. I am fluent in English with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg during my internships, so no relocation or visa from abroad is involved. As a non-EU national I would need the Maples Group's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss how I could contribute to your Luxembourg compliance team.

Yours sincerely,
Raman Yadav
