Hamilton Lane – London – Analyst, Client Solutions

Dear Hiring Team,

I am applying for the Analyst, Client Solutions role supporting Hamilton Lane's EMEA clients. Working between investors, general partners and internal teams on private markets portfolios is what I have done in Luxembourg, and I would like to do it closer to the investment decision.

At AManco, a EUR 10 billion AIFM, I monitored private equity, real estate, private debt and fund-of-funds portfolios, gathered data from general partners, administrators and portfolio managers, and produced quarterly portfolio reports for the Board. At UBS Fund Administration Services I worked in transfer agency for private equity and real estate funds, handling investor onboarding, capital calls and distributions, answering investor queries and validating more than 100 Partners' Capital Account statements. At Triton Partners I coordinate deliverables across directors, banks, auditors and law firms, and I designed and built an AI tool, now used daily by the team, that compiles, converts and files governance documents in one run. I would be glad to bring that experience with AI tools and agent building to how your team aggregates and presents client information. I hold an engineering degree from IIT and a Master in Management from EDHEC Business School.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
