IFM Investors – London – Analyst, Compliance EMEA

Dear Hiring Team,

I am applying for the Analyst, Compliance EMEA role in IFM Investors' Risk & Compliance team in London. The mix of AML oversight, regulatory reporting, regulatory change and marketing reviews matches the compliance and AIFM work I have done in Luxembourg, and I am drawn to IFM's purpose of protecting long-term retirement savings.

At Arendt Regulatory & Consulting I worked as a financial crime consultant on AML/KYC and CTF reviews for financial-sector clients, assessing procedures against regulatory requirements, documenting findings and recommending remediation. At AManco, a EUR 10 billion AIFM, I prepared and checked inputs for AIFMD Annex IV reporting to the CSSF and produced quarterly reports for the Board across private equity, real estate, private debt and fund-of-funds portfolios, which gave me a practical understanding of how an alternative investment manager meets its regulatory obligations. At UBS Fund Administration Services I handled investor onboarding and reconciliations for private equity and real estate funds. At Triton Partners I now support the governance of a large portfolio of Luxembourg entities, preparing board and committee papers, minutes and action trackers, and I designed and built an AI tool, now used daily by the team, that compiles, converts and files governance documents in one run. I would bring the same structured, improvement-minded approach to your management information, training records and FCA reporting. I hold a Master in Management from EDHEC Business School and an engineering degree from IIT.

I am a non-EU national and would require Skilled Worker visa sponsorship; I am available immediately and ready to relocate to London.

Yours sincerely,
Raman Yadav
