Grant Thornton Luxembourg – Junior Valuation Analyst – from January 2027

Dear Grant Thornton Recruitment Team,

I am applying for the Junior Valuation Analyst position starting in January 2027. Valuation is the part of my experience I enjoy most, and joining a valuation desk where I can work on business valuations, valuation reviews and financial models from the ground up is exactly the next step I am looking for.

At AManco, Arendt's AIFM with around EUR 10 billion under management, I worked in the Portfolio Management and Valuation team. I monitored assets and analysed valuation reports for five funds across private equity, real estate and fund-of-funds strategies, and produced quarterly portfolio and valuation reports for the Board. I also analysed more than 20 private equity, real estate, private debt and co-investment deals, drafted investment memos and presented them to the Investment Committee, which taught me to question assumptions and explain conclusions clearly to a senior audience. I supported AIFMD Annex IV reporting with the risk team using MS Access and SQL.

At UBS Fund Administration Services I worked on private equity and real estate funds, preparing and validating more than 100 Partners' Capital Account statements against fund documents, which built my precision with NAV and investor data. In my current internship at Triton Investments Management SARL, a private equity firm, I support board governance across a large portfolio of Luxembourg entities and built an AI tool, now used daily by the whole team, that compiles, converts and files documents in one run.

My EDHEC Master in Management focused on advanced corporate finance and private equity, where I built my grounding in DCF, multiples, IRR and NPV analysis, and my Bachelor of Technology from the Indian Institute of Technology gave me a strong quantitative base. I am studying for CFA Level I and have completed Bloomberg Market Concepts and the J.P. Morgan Investment Banking virtual programme. I am fluent in English, with beginner French and German, and I can start in January 2027. I live in Thionville on a French residence permit and have already worked in Luxembourg, so no relocation is involved. As a non-EU national I would need Grant Thornton's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
