EFG Bank (Luxembourg) S.A. – Compliance Officer – Financial Crime Compliance

Dear EFG Recruitment Team,

I am applying for the Compliance Officer position in your Financial Crime Compliance department in Luxembourg. Assessing clients and complex structures for financial crime risk, and helping the business serve them safely, is the work I trained in at Arendt and the area I want to build my career in.

At Arendt Regulatory & Consulting I worked in AML/CTF advisory, performing AML/KYC checks and PEP screenings on more than 50 individual and institutional investors and escalating high-risk entities for review. I also contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%, so I understand how risk-based controls and monitoring tools are built as well as how they are applied. At UBS Fund Administration Services I set up more than 150 investor records in UBS's CRM during the Credit Suisse–UBS migration and validated investor documentation and capital activity for private equity and real estate funds against fund documents, which trained me to check that information is accurate, complete and plausible.

In my current internship at Triton Investments Management SARL, a private equity firm, I support governance across a large portfolio of Luxembourg entities and handled the incorporation of more than 15 entities with notaries, including the related RCS filings. This gives me a working understanding of corporate structures, ownership chains and the documents behind them, which is directly relevant to analysing complex client structures and flows of funds. At AManco, Arendt's AIFM, I analysed more than 20 private equity, real estate and private debt deals for the Investment Committee and supported AIFMD Annex IV reporting with the risk team.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology, and I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM. I know my experience sits at the lower end of what you describe, but I learn quickly and bring hands-on AML/KYC work, a solid grasp of structures and a habit of improving processes; I built an AI tool now used daily by my team at Triton. I am fluent in English, with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg, so no relocation is involved. As a non-EU national I would need EFG's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
