Atdomco – AML/KYC & Onboarding Specialist

Dear Atdomco Team,

I am applying for the AML/KYC & Onboarding Specialist position. Two lines in your posting stood out to me: that this is not a box-ticking role, and that if someone sees a manual process they should think about how to remove it. That describes how I have approached every role so far, and AML/KYC for alternative investment structures is exactly where I want to grow.

At Arendt Regulatory & Consulting I worked in AML/CTF advisory, performing AML/KYC checks and PEP screenings on more than 50 individual and institutional investors and escalating high-risk entities for review with a documented rationale. I also contributed to the design and implementation of SARA, Arendt's AML/CTF risk-assessment tool, which cut review time by 40%, so I have seen how a risk methodology is turned into a working tool. At UBS Fund Administration Services I worked as a transfer agent for private equity and real estate funds, setting up more than 150 investor records in UBS's CRM during the Credit Suisse–UBS migration and validating investor documentation and capital activity against fund documents.

In my current internship at Triton Investments Management SARL, a private equity firm, I support governance across a large portfolio of Luxembourg entities and handled the incorporation of more than 15 entities with notaries and the controlling and finance teams, including the related RCS filings, which gave me hands-on familiarity with multi-layered Luxembourg holding and fund structures. I also built an AI tool, now used daily by the whole team, that compiles, converts and files governance documents in one run, and I drove the team's adoption of Claude, Copilot and Glean while keeping outputs checked and confidential. At AManco, Arendt's AIFM, I analysed more than 20 private equity, real estate and private debt deals for the Investment Committee.

I hold a Master in Management (Grande École) from EDHEC Business School and a Bachelor of Technology from the Indian Institute of Technology. I have about two and a half years of experience from internships at a private equity firm, a fund administrator, a consultancy and an AIFM, slightly below the range you mention, but I bring direct AML/KYC work on investors, a practical understanding of Luxembourg structures and a strong habit of automating. I am fluent in English, with beginner French and German, and I am available immediately. I live in Thionville on a French residence permit and have already worked in Luxembourg, so no relocation is involved. As a non-EU national I would need Atdomco's support for a Luxembourg work authorisation as a cross-border worker.

I would welcome the opportunity to discuss the role.

Yours sincerely,
Raman Yadav
